

NEW JERSEY CCW BULLETIN

As of today, July 13, 2022 there are no definitive procedures or updated requirements regarding the New Jersey CCW application.

There are several inaccurate rumors and letters circulating around the state. The truth is, no one really knows what the firm requirements will be, and what is going to definitively be accepted as proof of fulfillment of these requirements.

The State of New Jersey has advised that they will be issuing clear guidelines in the very near future.

We will post this information on line as soon as we know what is entailed.

Until we get a final decision from the State of New Jersey on the requirements we recommend that you consider holding off on applying for your CCW or spending money on a class and qualification that may not be needed.

Feel free to contact the Police Department with any questions.
