Attorney Tubman said there have been questions as to whether this use is a private hospital or a residential treatment center. Attorney Tubman read from the New Jersey Code regarding hospitals. One of the items in the code refers to over-night stays at a facility which it would then be considered a hospital. Attorney Tubman also referred to the ordinance and the definitions of institutional and said the Planning Board has the jurisdiction to hear this application. At this time, Attorney Tubman had Dr. Odunlami give testimony. Dr. Odunlami said he is the founder of GenPsych which he started in 2005 as a Mental Health Outpatient Facility. GenPsych is licensed by the State of NJ and with the State Department of Health and Division of Addiction Services. Dr. Odunlami said that GenPsych has grown and become one of the largest mental health programs in NJ with the only full Dialectical Behavioral Therapy Intensive Outpatient Program and Partial Hospitalization Program in New Jersey. Dr. Odunlami said he has 3 outpatient facilities in New Jersey and one in Sumter, South Carolina. He is also affiliated with Carrier Clinic in Belle Mead, N.J. Dr. Odunlami said they have on staff 8 Psychiatrists, 3 Advanced Practical Nurses; Psychologists, Nurses and 10 Physicians, Nurse Practitioners and numerous highly trained therapists which provide a wide spectrum of treatment to clients. 5 of the Physicians are located at the Bridgewater Facility.

Dr. Odunlami went through the process from when a person is admitted until discharge. Dr. Odunlami said his facilities are voluntary. Since they are a private facility they do not take court ordered patients. Dr. Odunlami said they would like to have at least 13 patients. There would be 4 full time staff 24/7 which would consists of 2 nurses, 1 mental health worker, one security guard for each shift. Sometimes family members accompany the patient at the time of admission. Dr. Odunlami said patients are medically cleared before entering the treatment program. Patients would be at the facility for 2-4 weeks. During that time they are not allowed to leave the premises. During the day the average number of staff would be 6-8 staff members. At the end of their inpatient stay, they would return home and continue on an outpatient basis. During their hospital stay, the patient is not allowed to have a vehicle on site.

At the conclusion of Dr. Odunlami testimony, Chairman MacQueen asked if the board had questions of the witness. Mr. Schmidt asked what the maximum number of patients would be since the application states 16 and 13 was mentioned. Dr. Odunlami said either 11 or 13 because of the Highlands and the septic system. Mr. Laul asked what burden would there be on a rescue squad. Dr. Odunlami said there would not be a burden. They will be able to deal with most issues that would come up. Ms. Bleck asked how old would be the youngest patient. Dr. Odunlami said 18. Visitation would only be on Sundays for family members only. Mr. Skidmore asked about traffic flow on the weekends with family members coming to visit. Dr. Odunlami said cars would be entering and exiting from Trimmer Road. There would be no more then 13 extra cars on Sunday since that is the only day for family visitations. Mr. Skidmore asked about being licensed by the State. Dr. Odunlami said once they are approved for the use, then they will apply to the state for a license. Mr. Skidmore asked about state inspections and how often. Dr. Odunlami said they would be inspected once a year. Mr. Skidmore asked what happens if you fail an inspection. Dr. Odunlami said they grant a temporary approval until what failed is fixed and then you would be re-inspected. Mr. Skidmore asked if the board could get a copy of the state standards for this type of facility. Dr. Odunlami said yes. Mr. Skidmore asked what the possibility was for a patient to just walk out the door and go wandering in the neighborhood. Dr. Odunlami said all the doors will have alarm systems which will go off if someone goes outside unattended. Chairman MacQueen asked if the Bridgewater facility was their main facility which is there home base. Chairman MacQueen asked about transportation. Dr. Odunlami said their transportation is in-house only. Mr. Milkowski asked if they accept court ordered patients. Dr. Odunlami said no, they are a private facility and take insurance. Mr. Milkowski asked if it were at all possible for them to get court ordered patients. Dr. Odunlami said court ordered patients don't have insurance and since they are a privately run facility, they would not accept patients without insurance.

Mr. Schmidt referred to the classes that are offered and asked if therapists do these classes or are specialists brought in. Dr. Odunlami said specialists are brought in to teach these classes. Mr. Laul asked if any of these programs are taken outside. Dr. Odunlami said no.

Mr. Skidmore referred to earlier testimony regarding patients coming from outpatient facilities to this inpatient facility and asked if that was correct, that patients wouldn't be shipped in from the outside that haven't been seen by the doctor. Dr. Odunlami said that is correct. Mr. Skidmore asked if it is 100% of the time. Dr. Odunlami said yes. Mr. Skidmore asked about the security that was discussed earlier and what the possibility was of a patient deciding that they didn't want to stay at the facility any longer. Dr. Odunlami said they can't stop someone from leaving, but they feel since they have security with the staffing it should not be a problem. Mr. Rich asked if they have looked at any other sites. Dr. Odunlami said it is difficult to find good sites. They picked this site since it was in an Industrial Zone and was a permitted use in the I5 zone.
