## INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and  
Members of the Township Committee  
Township of Lebanon  
530 West Hill Road  
Glen Gardner, New Jersey 08826

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the accompanying balance sheets - regulatory basis of the various funds and account group of the Township of Lebanon, County of Hunterdon, as of December 31, 2022 and 2021, the related statement of operations and changes in fund balance - regulatory basis for the years then ended, and the related statement of revenues - regulatory basis and statement of expenditures - regulatory basis of the various funds for the year ended December 31, 2022 and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

#### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the regulatory basis balance sheets and account group as of December 31, 2022 and 2021, the regulatory basis statements of operations for the years then ended and the regulatory basis statements of revenues and expenditures for the year ended December 31, 2022 in accordance with the basis of financial reporting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey as described in Note 1.

#### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the Township as of December 31, 2022 and 2021, or changes in financial positions for the years then ended.

-Continued-

### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey; and the standards applicable to financial audits contained in ***Government Auditing Standards***, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Township, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1 to the financial statements, the Township prepares its financial statements on the basis of the financial reporting provisions prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the regulatory basis of accounting and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, audit requirements prescribed by the Division of Local Government Services, and ***Government Auditing Standards*** will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, audit requirements prescribed by the Division of Local Government Services, and ***Government Auditing Standards***, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

-Continued-

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements-regulatory basis. The supplementary information listed in the table of contents is presented for purposes of additional analysis as required by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, and is not a required part of the basic financial statements-regulatory basis.

The supplementary information exhibits are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements-regulatory basis. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements-regulatory basis and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements-regulatory basis, or to the basic financial statements-regulatory basis themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information listed in the table of contents is fairly stated, in all material respects, in relation to the regulatory basis financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with ***Government Auditing Standards***, we have also issued our report dated April 15, 2023, on our consideration of the Township's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with ***Government Auditing Standards*** in considering the Township's internal control over financial reporting and compliance.

## **NOTES TO FINANCIAL STATEMENTS**

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

GASB Statement No.14 established criteria to be used to determine which component units should be included in the financial statements of the oversight entity. The Division requires the financial statements of the Township to be reported separately.

The financial statements of the Township of Lebanon include every board, body, officer or commission supported and maintained wholly or in part by funds appropriated by the Township, as The financial statements of the Township do not include the operations of the Board of Education.

**B. Description of Funds**

The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB Codification establishes seven fund types and two account groups to be used by governmental units when reporting financial position and results of operations in accordance with accounting principles generally accepted in the United States of America(GAAP).

The accounting policies of the Township of Lebanon conform to the accounting principles applicable to municipalities which have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the Township of Lebanon accounts for its financial transactions through the following separate funds, which differ from the fund structure required by GAAP.

**Current Fund**

Resources and expenditures for governmental operations of a general nature, including State grants for operations.

**Trust Funds**

Records the receipts, disbursement and custodianship of monies in accordance with the purpose for which each account was established.

**General Capital Fund**

The receipts and disbursement of funds for the acquisition of general infrastructure and other capital facilities, other than those acquired in the Current Fund. General bonds and notes payable are recorded in this fund offset by deferred charges to future taxation.

**General Fixed Assets Account Group**

To account for all fixed assets of the Township. The Township's infrastructure is not reported in the group.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**C. Basis of Accounting**

The accounting principles and practices prescribed for municipalities by the State of New Jersey differ in certain respects from generally accepted accounting principles applicable to local government units. The more significant policies in New Jersey follow.

A modified accrual basis of accounting is followed with minor exceptions.

**Revenues**--are recorded as received in cash except for certain amounts which are due from other governmental units. Receipts from State grants are realized as revenue when anticipated in the Township budget. Receivables for property taxes are recorded with offsetting reserves on the balance sheet of the Township's Current Fund; accordingly, such amounts are not recorded as revenue until collected. Other amounts that are due the Township which are susceptible of accrual are also recorded as receivables with offsetting reserves and recorded as revenue when received.

**Expenditures**--are recorded on the "budgetary" basis of accounting. Generally expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with the Encumbrance Accounting System. Outstanding encumbrances at December 31, are reported as a cash liability in the financial statements and constitute part of the Township's statutory Appropriation Reserve balance. Appropriation reserves covering unexpended appropriation balances are automatically created at December 31st of each year and recorded as liabilities, except for amounts which may be cancelled by the governing body.

Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding fiscal year. Lapsed appropriation reserves are recorded as income. Appropriations for principal payments on outstanding general capital and utility bonds and notes are provided on the cash basis; interest on general capital indebtedness is on the cash basis, whereas interest on utility indebtedness is on the accrual basis.

**Property Tax Revenue**--Real property taxes are assessed locally, based upon the assessed value of the property. The tax bill includes a levy for Municipal, County, Open Space and School purposes. The bills are mailed annually in June for that calendar year's levy. Taxes are payable in four quarterly installments on February 1, May 1, August 1 and November 1.

The amounts of the first and second installments are determined as one quarter of the total tax levied against the property for the preceding year. The installment due the third and fourth quarters is determined by taking the current year levy less the amount previously charged for the first and second installments, with the remainder being divided equally.

If unpaid on these dates, the amount due becomes delinquent and subject to interest at 8% per annum, or 18% on any delinquency amount in excess of \$1,500. The school levy is turned over to the Board of Education as expenditures are incurred, and the balance, if any, must be transferred as of June 30, of each fiscal year. County taxes are paid to the County by the Township quarterly on February 15, April 15, August 15 and November 15. The Open Space Levy is paid quarterly to the Township's other trust funds on February 15, April 15, August 15 and November 15.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**C. Basis of Accounting (Continued)**

When unpaid taxes or any municipal lien, or part thereof, on real property remains in arrears after the eleventh day of the eleventh month in the year in which they are due, the collector in the municipality shall, subject to provisions of the New Jersey Statutes, enforce the lien by placing the property on a tax sale. Annual in rem tax foreclosure proceedings are instituted to enforce the tax collection or acquisition of title to the property by the Township.

In accordance with the accounting Principles prescribed by the State of New Jersey, current and delinquent taxes are realized as revenue when collected. Since delinquent taxes and liens are fully reserved, no provision has been made to estimate that portion of the taxes receivable and tax title liens that are uncollectible. GAAP required tax revenues to be recognized in the accounting period when they become susceptible to accrual, reduced by an allowance for doubtful accounts.

**Deferred School Taxes**--A portion of the school taxes collected at December 31 relating to the period January 1 to June 30 of the subsequent year have been included in fund balance. GAAP requires such revenue to be deferred and recognized in the accounting period when it becomes susceptible to accrual.

**Foreclosed Property**--Foreclosed property is recorded in the Current Fund at the assessed valuation when such property was acquired and is fully reserved.

**Interfunds**--Interfund receivables in the Current Fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

**Inventories of Supplies**--The cost of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The cost of inventories are not included on the various balance sheets.

**General Fixed Assets**--In accordance with Technical Accounting Directive No. 85-2, Accounting for Governmental Fixed Assets, as promulgated by the Division of Local Government Services, which differs in certain respects from generally accepted accounting principles, the municipality develops a fixed asset accounting and reporting system.

Fixed assets used in governmental operations (general fixed assets) are accounted for in the General Fixed Assets Account Group. Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available except for land which is valued at estimated market value.

No depreciation is to be provided for in the financial statements. Expenditures for construction in progress are recorded in the Capital Funds until such time as the construction is completed and put into operation.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**C. Basis of Accounting (Continued)**

Expenditures for construction in progress are recorded in the Capital Funds until such time as the construction is completed and put into operation.

Fixed assets acquired through grants in aid or contributed capital have not been accounted for separately.

**Budget and Budgetary Procedures**--The foundation of the New Jersey local finance system is the annual cash basis budget required under the Local Budget Law (N.J.S.A.40A:4-1, et seq.). Every local unit must adopt a budget in the form required by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"). Certain items of revenue and appropriation are regulated by law and the proposed budget must be certified by the Director of the Division ("Director") prior to final adoption. The normal budget calendar begins early in the fiscal year with introduction, public advertisement and after state approval, budget adoption. The cash basis for revenues and budgetary basis for expenditures is the budget basis of accounting.

The Township is not required to adopt budgets for the following funds:

**General Capital Fund  
Public Assistance Fund  
Trust fund**

The governing body shall introduce and approve the annual budget not later than February 10, of the fiscal year. The budget shall be adopted not later than March 20, and prior to adoption, must be certified by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. The Director of the Division of Local Government Services, with the approval of the Local Finance Board, may extend the introduction and approval and adoption dates of the municipal budget. The budget is prepared by fund, function, activity and line item (salary or other expense) and includes information on the previous year. The legal level of control for appropriations is exercised at the individual line item level for all operating budgets adopted. Emergency appropriations, those made after the adoption of the budget and determination of the tax rate, may be authorized by the governing body of the municipality.

During the last two months of the fiscal year, the governing body may, by a 2/3 vote, amend the budget through line item transfers. Management has no authority to amend the budget without the approval of the Government Body. Expenditures may not legally exceed budgeted appropriations at the line item level.

**Expenditures**--Are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with an encumbrance accounting system. Outstanding encumbrances at December 31, are reported as a cash liability in the financial statements. Unexpended or uncommitted appropriations at December 31, are reported as expenditures through the establishment of appropriations reserves unless cancelled by the governing body. GAAP requires expenditures to be recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which should be recognized when due.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**C. Basis of Accounting (Continued)**

**Tax Appeals and Other Contingent Losses**--Losses which arise from tax appeals and other contingent losses are recognized at the time an unfavorable decision is rendered by an administrative or judicial body.

**Deferred Charges to Future Taxation Funded and Unfunded**--Upon the authorization of capital projects, the Township establishes deferred charges for the costs of the capital projects to be raised by future taxation. Funded deferred charges relate to permanent debt issued, whereas unfunded deferred charges relate to temporary or non-funding of the authorized cost of capital projects. According to N.J.S.A.40A:2-4, the Township may levy taxes on all taxable property within the local unit to repay the debt. Annually, the Township raises the debt requirements for that particular year in the current budget. As the funds are raised by taxation, the deferred charges are reduced.

**Comparative Data** - Comparative data for the prior year has been presented in the accompanying balance sheets and statements of operations in order to provide an understanding of changes in the municipality's financial position and operations. However, comparative data have not been presented in all statements because their inclusion would make certain statements unduly complex and difficult to understand.

**Use of Estimates**--The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. This will affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. Actual results could differ from these estimates.

**Departures from Generally Accepted Accounting Principles**--The accounting principles and practices followed by the Township differ generally accepted accounting principles applicable to local government units. The more significant differences are as follows:

- Taxes and other receivables are fully reserved.
- Interfund receivables in the Current Fund are fully reserved.
- Unexpended and uncommitted appropriations are reflected as expenditures.
- Overexpended appropriations and emergency appropriations are deferred to the succeeding years' operations.
- Undetermined contributions to state-administered pension plans applicable to the six months ended December 31 are not accrued.
- Estimated losses arising from tax appeals and other contingencies are not recorded when it is probable that a loss has been incurred and the amount of such loss can be reasonably estimated.

It was not practicable to determine the effect of such difference.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**C. Basis of Accounting (Continued)**

**Regulatory-Basis Financial Statements**--The GASB Codification also defines the financial statements of a governmental unit to be presented to be in accordance with GAAP. The Township presents the financial statements listed in the table of contents which are required by the Division and which differ from the financial statements required by GAAP. In addition, the Division requires the financial statements listed in the table of contents to be referenced to the supplementary schedules. This practice differs from GAAP.

**Note 2: CASH AND CASH EQUIVALENTS**

**Deposits:**

New Jersey statutes require that municipalities deposit public funds in public depositories located in New Jersey, which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. Municipalities are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Pursuant to GASB Statement No. 40, "Deposit and Investment Risk Disclosures" ("GASB 40"), the municipality's accounts are profiled in order to determine exposure, if any, to Custodial Credit Risk (risk that in the event of failure of the counterparty the municipality would not be able to recover the value of its deposits or investment). Deposits are considered to be exposed to Custodial Credit Risk if they are: uncollateralized or collateralized with securities held by the financial institution's trust department or agent but not in the government's name. At December 31, 2022, all of the municipality's deposits were collateralized by securities held in its name and, accordingly, not exposed to custodial credit risk. The municipality does not have a policy for custodial credit risk.

**Deposits:**

As of December 31, 2022, cash and cash equivalents of the municipality consisted of the following:

	Cash and Cash Equivalents	Total
Checking	<u>\$ 8,248,152</u>	<u>\$ 8,248,152</u>

The carrying amount of the municipality's cash and cash equivalents at December 31, 2022, was \$8,248,152 and the bank balance was \$8,844,007. All bank balances were covered by federal depository insurance and/or covered by a collateral pool maintained by the banks as required by New Jersey statutes. Of these bank balances, \$388,727 was covered by federal depository insurances and \$8,455,280 was covered by collateral pool.

**Note 3: LONG-TERM DEBT**

The Local Bond Law governs the issuance of bonds and notes to finance general municipal expenditures. All bonds issued by the Township are general obligation bonds, backed by the full faith and credit of the Township. Bond anticipation notes, which are issued by temporarily finance capital projects, must be paid off within ten years or retired by issuance of bonds.

The Township debt is summarized as follows:

Current Fund - \$800,000 \*

\*Approved (Introduced) Budget

**Note 6: DEFERRED CHARGES TO BE RAISED IN SUCCEEDING BUDGETS**

Certain expenditures are required to be deferred to budgets of succeeding years and raised over a five (5) year period. At December 31, 2022, the Township had \$40,000 in charges that are required to be liquidated in subsequent budgets. This amount resulted from \$100,000 of special emergency costs authorized by New Jersey statute N.J.S. 40A:4-53 for revaluation of property values. The \$40,000 balance in authorized costs will be raised in subsequent budgets. \$20,000 was raised in the 2023 budget.

**Note 7: SCHOOL TAXES**

Regulations provide for the deferral of not more than 50% of the annual levy when school taxes are raised for a school year and have not been requisitioned by the school district.

The Township of Lebanon had elected in 1975 to raise local district school taxes on a calendar year basis.

Local District Tax and Regional High School Tax have been raised and liabilities deferred by statute (under provisions of C.63, P.L.1991, as amended), resulting in the school taxes payable set forth in the Current Fund liabilities as follows:

**Note 8: PENSION PLANS**

**Description of Plans** - All required employees of the municipality are covered by either the Public Employees' Retirement System (PERS), the Police and Fireman's Retirement System (PFRS), or the Defined Contribution Retirement Plan (DCRP) which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System. These reports may be obtained by writing to the Division of Pension and Benefits, PO Box 295, Trenton, New Jersey, 08625 or on the internet at <http://www.state.nj.us/treasury/pensions/annrpts.shtml>.

**Public Employees' Retirement System (PERS)** - The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school municipality, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

**Vesting and Benefit Provisions** -The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

**Tier Definition**

- 1 Members who were enrolled prior to July 1, 2007
- 2 Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
- 3 Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
- 4 Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
- 5 Members who were eligible to enroll on or after June 28, 2011

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022

**Note 8: PENSION PLANS - (Continued)**

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1 /60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more years of service credit and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

The PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Contribution Requirements - The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 (PERS) requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PERS provides for employee contributions of 6.5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in the PERS. The current PERS rate is 6.5% of covered payroll.

Summary of Significant Accounting Policies - New Jersey's municipalities and counties do not follow GAAP accounting principles and, as such, do not follow GASB requirements with respect to recording the net pension liability or related deferred outflows or inflows of resources on their balance sheets, or related plan pension expense. However, N.J.A.C. 5:30-6.1(c)(2) requires municipalities and counties to disclose GASB 68 information in the Notes to the Financial Statements. Accordingly, the municipality's portion of the net pension liability, related outflows and inflows of resources, and pension expense are for disclosure purposes only and do not effect the municipality's regulatory basis fund balance, statement of revenues and expenditures, or operations. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense as required by GASB No. 68, information about the fiduciary net position of the PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the municipality disclosed a liability of \$1,205,350 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020, which was rolled forward to June 30, 2021. This is a departure from generally accepted accounting principles, as the measurement date is to be no more than twelve months before the municipality's fiscal year end of December 31, 2022. The municipality's proportion of the net pension liability is based on the ratio of the contributions as an individual employer to total contributions to the PERS during the years ended June 30, 2021 and 2020. At June 30, 2021, the municipality's proportion was 0.01% which was a decrease of 0.00121% from its proportion measured as of June 30, 2020.

NOTES TO FINANCIAL STATEMENTS

**Note 8: PENSION PLANS (Continued)**

For the State fiscal year ended June 30, 2021, the municipality's portion of the plan's pension expense was (\$296,493). At June 30, 2021, deferred outflows of resources and deferred inflows of resources for PERS relating to the municipality's proportionate share are from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 31,390	\$ 8,629
Changes of assumptions	10,366	429,112

Collective net pension liability (Non State - Local Group)	\$16,307,379,052	\$11,972,782,878
municipality's proportionate share of net pension liability	\$1,855,639	\$1,205,350
municipality's proportion %	0.01137914%	0.01006742%

Actuarial assumptions - The collective total pension liability for the June 30, 2021 measurement date was determined by an actuarial valuation as of July 1, 2020, which was rolled forward to June 30, 2021. This actuarial valuation used the following actuarial assumptions:

Inflation:	2.75% Price, 3.25% Wage
Salary Increases:	
Through 2026	2.00%-6.00% based on years of service
Thereafter	3.00%-7.00% based on years of service
Investment Rate of Return:	7.00%

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022

**Note 8: PENSION PLANS (Continued)**

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2019.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2021 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equity	27.00%	8.09%
Non-U.S. develop markets equity	13.50%	8.71%
Emerging markets equity	5.50%	10.96%
Private Equity	13.00%	11.30%
Real Estate	8.00%	9.15%
Real Assets	3.00%	7.40%
High Yield	2.00%	3.75%
Private Credit	8.00%	7.60%
Investment Grade Credit	8.00%	1.68%
Cash Equivalents	4.00%	0.50%
US Treasuries	5.00%	0.95%
Risk Mitigation Strategies	3.00%	3.35%

*Discount rate* - The discount rate used to measure the total pension liability was 7.00% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 100% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

*Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate* - The following presents the District's proportionate share of the net pension liability measured as of June 30, 2021, calculated using the discount rate as disclosed above, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

**Pension plan fiduciary net position** - Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Divisions of Pensions and Benefits financial report at <http://www.nj.gov/treasury/pensions/financial-rpts-home.shtml>.

**Police and Fireman's Retirement System (PFRS)** - The Police and Fireman's Retirement System (PFRS) was established as of January 1, 1944, under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Police and Fireman's Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

**Vesting and Benefit Provisions** -The vesting and benefit provisions are set by N.J.S.A. 43:16A. PFRS provides retirement as well as death and disability benefits. All benefits vest after ten years of service, except disability benefits which vest after four years of service.

The following represents the membership tiers for PFRS:

**Tier Definition**

- 1 Members who were enrolled prior to May 22, 2010
- 2 Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
- 3 Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits are available at age 55 and are generally determined to be 2% of final compensation for each year of creditable service, as defined, up to 30 years plus 1% for each year of service in excess of 30 years. Members may seek special retirement after achieving 25 years of creditable service, in which benefits would equal 65% (tiers 1 and 2 members) and 60% (tier 3 members) of final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years. Members may elect deferred retirement benefits after achieving ten years of service, in which case benefits would begin at age 55 equal to 2% of final compensation for each year of service.

**Note 8: PENSION PLANS (Continued)**

Contribution Requirements - The contribution policy for PFRS is set by N.J.S.A 43:16A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's contribution amount is based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. For fiscal year 2021 the State contributed an amount less than the actuarially determined amount.

The Local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PFRS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

Summary of Significant Accounting Policies - New Jersey's municipalities and counties do not follow GAAP accounting principles and, as such, do not follow GASB requirements with respect to recording the net pension liability or related deferred outflows or inflows of resources on their balance sheets, or related plan pension expense. However, N.J.A.C. 5:30-6.1(c)(2) requires municipalities and counties to disclose GASB 68 information in the Notes to the Financial Statements. Accordingly, the municipality's portion of the net pension liability, related outflows and inflows of resources, and pension expense are for disclosure purposes only and do not effect the municipality's regulatory basis fund balance, statement of revenues and expenditures, or operations. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense as required by GASB No. 68, information about the fiduciary net position of the PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the municipality disclosed a liability of \$1,827,413 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020, which was rolled forward to June 30, 2021. This is a departure from generally accepted accounting principles, as the measurement date is to be no more than twelve months before the municipality's fiscal year end of December 31, 2022. The municipality's proportion of the net pension liability is based on the ratio of the contributions as an individual employer to total contributions to the PERS during the years ended June 30, 2021 and 2020. At June 30, 2021, the municipality's proportion was 0.025002% which was an increase of 0.22472% from its proportion measured as of June 30, 2020.

**Note 8: PENSION PLANS (Continued)**

For the State fiscal year ended June 30, 2021, the municipality's portion of the plan's pension expense was (\$281,122). At June 30, 2021, deferred outflows of resources and deferred inflows of resources for PFRS relating to the municipality's proportionate share are from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 20,849	\$ 218,905
Changes of assumptions	9,724	547,667

*Actuarial assumptions* - The total pension liability in the July 1, 2020 actuarial valuation, which was rolled forward to June 30, 2021, was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation:	2.75% (Price); 3.25% (Wage)
<u>Salary Increases:</u>	
Through all future years	3.25-15.25% based on years of service
Investment Rate of Return:	7.00%

NOTES TO FINANCIAL STATEMENTS

**Note 8: PENSION PLANS (Continued)**

Employee mortality rates were based on the PubS-2010 amount-weighted mortality table with a 105.6% adjustment for males and 102.5% adjustment for females. For healthy annuitants, mortality rates were based on the PubS-2010 amount-weighted mortality table with a 96.7% adjustment for males and 96.0% adjustment for females. Disability rates were based on the PubS-2010 amount-weighted mortality table with a 152.0% adjustment for males and 109.3% adjustment for females. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2018.

*Long-Term Expected Rate of Return* - In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PFRS's target asset allocation as of June 30, 2022 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>

**Note 8: PENSION PLANS (Continued)**

*Discount rate* - The discount rate used to measure the total pension liability was 7.00% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 78% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2076. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2076, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

*Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate* - The following presents the District's proportionate share of the net pension liability measured as of June 30, 2021, calculated using the discount rate as disclosed above, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	<u>1% Decrease</u> <u>(6.00%)</u>	<u>Current Discount</u> <u>Rate (7.00%)</u>	<u>1% Increase</u> <u>(8.00%)</u>
municipality's proportionate share of the net pension liability	\$ 2,774,927	\$1,827,413	\$ 1,038,702

*PFRS Special Funding Situation* - Under N.J.S.A. 43:16A-15, the municipality is responsible for their own contributions based on actuarially determined amounts, except where legislation was passed which legally obligated the State if certain circumstances occurred. The legislation which legally obligates the State is as follows: Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001. The amounts contributed on behalf of the municipality to the PFRS under this legislation is considered to be a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. The portion of the nonemployer contributing entities' total proportionate share of the collective net pension liability and collective pension expense that is associated with the municipality is as follows:

	<u>6/30/2020</u>	<u>6/30/2021</u>
Collective net pension liability of the Nonemployer (State of New Jersey) - Special Funding Situation	\$2,005,329,818	\$2,055,697,552
State's portion of the net pension liability that was associated with the municipality - Special Funding Situation	\$507,251	\$513,960
State's portion of the net pension liability that was associated with the municipality as a percentage of the collective net pension liability - Special Funding Situation	0.025295%	0.025002%
Collective pension expense of the Nonemployer-(State of New Jersey) - Special Funding Situation	\$227,263,993	\$228,944,734
State's portion of the pension expense that was associated with the municipality - Special Funding Situation	\$57,487	\$57,240

**Pension plan fiduciary net position** - Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Divisions of Pensions and Benefits financial report at <http://www.nj.gov/treasury/pensions/financial-rprts-home.shtml>.

**Defined Contribution Retirement Plan (DCRP)** - The Defined Contribution Retirement Program (DCRP) was established as of July 1, 2007 under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A. 43:15C-1 et seq.). The DCRP is a cost-sharing multiple-employer defined contribution pension fund. The DCRP provides eligible members, and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A. 43:15C-1 et. seq.

The contribution requirements of plan members are determined by state statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. The State Treasurer has the right under current law to make temporary reductions in member rates based on the existence of surplus plan assets in the retirement system; however statute also requires the return to the normal rate when such surplus pension assets no longer exist.

**Significant Legislation** - Chapter 78, P.L. 2011, effective June 28, 2011 made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Police and Firemen's Retirement System (PFRS) operate and to the benefit provisions of those systems.

Chapter 78's provisions impacting employee pension and health benefits include:

□ New members of the PERS hired on or after June 28, 2011 (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of  $\frac{1}{4}$  of 1% for each month that the member is under age 65. □ The eligibility age to qualify for a service retirement in the PERS is increased from age 63 to 65 for Tier 5 members. □ The annual benefit under special retirement for new PFRS members enrolled after June 28, 2011 (Tier 3 members), will be 60% instead of 65% of the member's final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years. □ Increases in active member contribution rates. PERS active member rates increase from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years; PFRS active member rate increase from 8.5% to 10%. For fiscal year 2012, the member contribution rates increased in October 2011. The phase-in of the additional incremental member contribution rates for PES members will take place in July of each subsequent fiscal year.

□ The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law. □ New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary. □ In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

**Note 9: OTHER POST-EMPLOYMENT BENEFITS (OPEB)**

**Summary of Significant Accounting Policies** - New Jersey's municipalities and counties do not follow GAAP accounting principles and, as such, do not follow GASB requirements with respect to recording the net OPEB liability or related deferred outflows or inflows of resources on their balance sheets, or related OPEB expense. However, N.J.A.C. 5:30-6.1(c)(2) requires municipalities and counties to disclose GASB 75 information in the Notes to the Financial Statements. Accordingly, the municipality's portion of the net OPEB liability, related outflows and inflows of resources, and OPEB expense are for disclosure purposes only and do not effect the municipality's regulatory basis fund balance, statement of revenues and expenditures, or operations. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense as required by GASB No. 75, information about the fiduciary net position of the plan and additions to/deductions from plan fiduciary net position have been determined on the same basis as they are reported by the plan.

**General Information About the OPEB Plan** - The State Health Benefit Local Government Retired Employees Plan (the Plan) is a cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plan with a special funding situation. It covers employees of local government employers that have adopted a resolution to participate in the Plan. The plan meets the definition of an equivalent arrangement as defined in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions (GASB Statement No. 75); therefore, assets are accumulated to pay associated benefits. For additional information about the Plan, please refer to the State of New Jersey (the State), Division of Pensions and Benefits' (the Division) Comprehensive Annual Financial Report (CAFR), which can be found at <https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

The Plan provides medical and prescription drug to retirees and their covered dependents of the employers. Under the provisions of Chapter 88, P.L. 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of postretirement medical coverage for employees and their dependents who: 1) retired on a disability pension; or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiations agreement.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022

**Note 9: OTHER POST-EMPLOYMENT BENEFITS (OPEB)-Continued**

In accordance with Chapter 330, P.L. 1997, which is codified in N.J.S.A 52:14-17.32i, the State provides medical and prescription coverage to local police officers and firefighters, who retire with 25 years of service or on a disability from an employer who does not provide postretirement medical coverage. Local employers were required to file a resolution with the Division in order for their employees to qualify for State-paid retiree health benefits coverage under Chapter 330. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Allocation Methodology - GASB Statement No. 75 requires participating employers in the Plan to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense. The special funding situation's and nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are based on separately calculated total OPEB liabilities. For the special funding situation, the total OPEB liabilities for the years ended June 30, 2021 and 2020 were \$5,462,303,132 and \$6,338,578,586, respectively, while for the nonspecial funding situation, the total OPEB liabilities were \$12,484,309,814 and \$9,452,773,649, respectively. The nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are further allocated to employers based on the ratio of the plan members of an individual employer to the total members of the Plan's nonspecial funding situation during the measurement period July 1, 2019 through June 30, 2021.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At June 30, 2022, the municipality disclosed a liability of \$4,263,428 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2020, which was rolled forward to June 30, 2021. This is a departure from generally accepted accounting principles, as the measurement date is to be no more than twelve months before the municipality's fiscal year end of December 31, 2022. The municipality's proportion of the net OPEB liability is based on the ratio of the plan members of an individual employer to the total members of the Plan's nonspecial funding situation during the measurement period July 1, 2020 through June 30, 2021. At June 30, 2021, the municipality's proportion was 0.02369% which was an increase of 0.02177% from its proportion measured as of June 30, 2020.

For the State fiscal year ended June 30, 2021, the municipality's portion of the plan's OPEB expense was \$650,120. At June 30, 2021, deferred outflows of resources and deferred inflows of resources for OPEB relating to the municipality's proportionate share are from the following sources:

*Actuarial assumptions* - The total OPEB liability as of June 30, 2021 was determined by an actuarial valuation as of July 1, 2020, which was rolled forward to June 30, 2021. The total OPEB liability as of June 30, 2020 was determined by an actuarial valuation as of July 1, 2020. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation:	2.50%
Salary Increases:	
Through 2026	2.0%-6.0% based on age and plan enrolled in
Therafter	3.0%-7.0% based on age and plan enrolled in

Preretirement mortality rates were based on the Pub-2010 Headcount-Weighted Healthy Employee Male /Female mortality table with fully generational mortality improvement projections from the central year using the MP-2021 scale. Postretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2021 scale. Disability mortality was based on the Pub-2010 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2021 scale.

Certain actuarial assumptions used in the July 1, 2020 valuation were based on the results of the pension plans' experience studies for which the members are eligible for coverage under this Plan - the Police and Firemen Retirement System (PFRS) and the Public Employees' Retirement System (PERS). The PFRS and PERS experience studies were prepared for the periods July 1, 2013 to June 30, 2018 and July 1, 2014 to June 30, 2018, respectively.

100% of active members are considered to participate in the Plan upon retirement.

*Health Care Trend Assumptions* - For pre-Medicare medical benefits, the trend is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rates for fiscal year 2021 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years.

*Discount Rate* - The discount rate for June 30, 2021 and 2020 was 2.16% and 2.21%, respectively. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022

**Note 9: OTHER POST-EMPLOYMENT BENEFITS (OPEB)-Continued**

**Special Funding Situation** - Under Chapter 330, P.L. 1997, the State shall pay the premium or periodic charges for the qualified local police and firefighter retirees and dependents equal to 80 percent of the premium or periodic charge for the category of coverage elected by the qualified retiree under the State managed care plan or a health maintenance organization participating in the program providing the lowest premium or periodic charge. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L. 1989.

Therefore, these employers are considered to be in a special funding situation as defined by GASB Statement No 75 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute under this legislation directly to the plan, there is no net OPEB liability, deferred outflows of resources or deferred inflows of resources to report in the financial statements of the local participating employers related to this legislation. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the collective net OPEB liability that is associated with the local participating employer.

**Employees covered by benefit terms. At June 30, 2021, the following employees were covered by the benefit terms:**

	Special Funding Situation
Collective Plan Members June 30, 2021	16,249
Municipality's Plan Members June 30, 2021	1

**Total OPEB Liability**

	June 30, 2020	June 30, 2021
Collective net OPEB liability of the State of New Jersey - Special Funding Situation	\$5,462,303,132	\$3,861,357,890
Net OPEB liability of the State of New Jersey Associated with the Municipality	\$2,248,393	\$237,628

*Actuarial assumptions* - The total OPEB liability as of June 30, 2021 was determined by an actuarial valuation as of July 1, 2020, which was rolled forward to June 30, 2021. The total OPEB liability as of June 30, 2020 was determined by an actuarial valuation as of July 1, 2020. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation:	2.50%
Salary Increases:	
Through 2026	2.0%-6.0% based on age and plan enrolled in
Thereafter	3.0%-7.0% based on age and plan enrolled in

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022

**Note 9: OTHER POST-EMPLOYMENT BENEFITS (OPEB)-Continued**

Preretirement mortality rates were based on the Pub-2010 Headcount-Weighted Healthy Employee Male /Female mortality table with fully generational mortality improvement projections from the central year using the MP-2021 scale. Postretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2021 scale. Disability mortality was based on the Pub-2010 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2021 scale.

Certain actuarial assumptions used in the July 1, 2020 valuation were based on the results of the pension plans' experience studies for which the members are eligible for coverage under this Plan - the Police and Firemen Retirement System (PFRS) and the Public Employees' Retirement System (PERS). The PFRS and PERS experience studies were prepared for the periods July 1, 2013 to June 30, 2018 and July 1, 2014 to June 30, 2018, respectively.

100% of active members are considered to participate in the Plan upon retirement.

Health Care Trend Assumptions - For pre-Medicare medical benefits, the trend is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rates for fiscal year 2022 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years.

*Discount Rate* - The discount rate for June 30, 2021 and 2020 was 2.16% and 2.21%, respectively. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022

**Note 9: OTHER POST-EMPLOYMENT BENEFITS (OPEB)-Continued**

**OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

For the year ended June 30, 2021, the State of New Jersey's OPEB expense was (\$526,896,727) and the amount of OPEB Expense associated with the municipality was (\$32,425).

**Note 10: DEFERRED COMPENSATION PLAN**

The Township has a deferred compensation plan available to employees which has been established pursuant to Section 457 of the Internal Revenue Code and in accordance with applicable New Jersey Statutes and the New Jersey Administrative Code (NJAC 5:37). The Plan is fully contributory and the Township has no liabilities in conjunction with this plan.

**Note 11: LEASES**

The Township has not entered into any long-term lease agreements.

**Note 12: ACCRUED SICK AND VACATION BENEFITS**

As discussed in Note 1 and in accordance with accounting principles prescribed by the State of New Jersey, the cash basis of accounting is followed for recording the liability related to unused sick pay.

The Township has permitted employees to carryover vacation, compensatory time, and sick pay, which may be taken off or paid at a later date. At December 31, 2022, the contingent liability associated with this benefit is estimated by management to be approximately \$300,000.

**Note 13: CONTINGENT LIABILITIES**

**GRANT PROGRAMS**

The Township participated in a number of state assisted grant programs administered at the state level. These programs, exclusive of the single audit concept, can be subject to program compliance audits by the grantors or their representatives. Accordingly, the Township's compliance with certain applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the Township expects such amounts, if any, to be immaterial.

**LITIGATION**

There are pending lawsuits in which the Township is involved. The municipal attorney estimates that the potential claims against the Township not covered by insurance resulting from such litigation would not materially affect the financial statements of the Township.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022

**Note 14: OTHER REQUIRED DISCLOSURES**

Individual fund interfund receivable and payable balances. All interfund receivable and payable balances outstanding at the beginning of the fiscal period were fully liquidated during the fiscal period, with the following exceptions outstanding at December 31, 2022:

<u>FUND</u>	<u>DUE FROM OTHER FUNDS</u>	<u>DUE TO OTHER FUNDS</u>
Current Fund	\$ 485,448	\$ 259,656
Federal/State Grants Fund	51,427	475,430
Dog Fund	-	32
Trust Fund	259,656	-
General Capital Fund	-	61,413
	<u>\$ 796,531</u>	<u>\$ 796,531</u>

**Note 15: RISK FINANCING**

The Township is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage. There were no significant reductions in insurance coverage from coverage in the prior year.

**Note 14: TAX ABATEMENTS**

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. The municipality has not entered into any tax abatement agreements.

## **GENERAL COMMENTS**

### **Scope of Audit**

The audit of the financial statements of the Township of Lebanon, County of Hunterdon, New Jersey, as required by the Division of Local Government Services, covered the financial transactions of the Treasurer, Tax Collector, the activities of the Township and the records of the various outside departments.

### **Contracts and Agreements Requiring Advertisement for Bids**

Effective April 17, 2000, N.J.S.A.40A:11-1 et.seq (Local Public Contracts Law) was revised by P.L.1999,c.440 (originally known as Assembly Bill No. 3519). Rules and regulations pertaining to the amended law are to be promulgated by the Division of Local Government Services.

N.J.S.A. 40A:11-3 is amended to read as follows:

- a. When the cost or price of any contract awarded by the purchasing agent in the aggregate, does not exceed in the contract year the total sum of \$17,500, the contract may be awarded by a purchasing agent when so authorized by resolution of the governing body without public advertising for bids and bidding therefore, except that the governing body may adopt a resolution to set a lower threshold for the receipt of public bids or the solicitation of competitive quotations. If the purchasing agent is qualified pursuant to subsection b. (pending before the Legislature as section 15 of this bill) of section 9 of P.L.1971,c.198(C.40A:11-9) the governing body may establish that the bid threshold may be up to \$25,000. Such authorization may be granted for each contract or by a general delegation of the power to negotiate and award such contracts pursuant to this section.
- b. Any contract made pursuant to this section may be awarded for a period of 24 consecutive months, except that contracts for professional services pursuant to paragraph (i) of paragraph (a) of subsection (1) of Section 5 of P.L.1971, C.198(C.40A:11-5) may be awarded for a period not exceeding 12 consecutive months. The Division of Local Government Services shall adopt and promulgate rules and regulations concerning the methods of accounting for all contracts that do not coincide with the contracting unit's fiscal year.
- c. Commencing in the fifth year after the year in which P.L.1999,c.440 takes effect, and every five years thereafter, the Governor, in consultation with the Department of Treasury, shall adjust the threshold amount and the higher threshold amount which the governing body is permitted to establish as set forth in subsection a. of this section or the threshold amount resulting from any adjustment under this subsection, in direct proportion to the rise or fall of the index rate as that term is defined in N.J.S.18A:18A-2(pending before the Legislature as section 50 of this bill), and shall round the adjustment to the nearest \$1,000. The Governor shall notify all municipal units of the adjustment no later than June 1 of every fifth year. The adjustment shall become effective on July 1 of the year in which it is made.

N.J.S.A.40A:11-4 (as amended) states, "Every contract or agreement for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the governing body to the lowest responsible bidder after public advertising for bids and bidding therefore, except as is provided otherwise in this chapter or specifically by any other law."

Effective July 1, 2020, the bid threshold in accordance with N.J.S.A.40A:11-3(c) (as amended) is increased to \$44,000 for Qualified Purchasing Agents (QPA), and \$17,500 for units without QPA's.

The governing body of the municipality has the responsibility of determining whether the expenditures in any category will exceed the statutory thresholds within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Township Counsel's opinion should be sought before a commitment is made.

The Minutes indicate that resolutions were adopted and advertised authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.40A:11-5.

The system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not determine whether any clear-cut violations existed.

My examination of expenditures did not reveal any individual payments, contracts or agreements in excess of the statutory thresholds "for the performance of any work or the furnishing or hiring of any materials or supplies" other than those where bids had been previously sought by public advertisement or where a resolution had been previously adopted under the provisions of N.J.S.40A:11-6.

### **Collection of Interest on Delinquent Taxes and Assessments**

The statute provides the method of authorizing interest and the maximum rates to be charged for the nonpayment of taxes or assessments on or before the date when they would become delinquent.

The governing body, on January 5, 2022, adopted the following resolution authorizing interest to be charged on delinquent taxes:

“Be It Resolved that pursuant to R.S.54:4-67, the Township Committee of the Township of Lebanon, County of Hunterdon, and State of New Jersey, hereby fixes the rate of interest to be charged on all delinquent taxes for the year 2004 at the rate of eight (8) per cent per annum for the first \$1,500 and eighteen (18) per cent for amounts over \$1,500.

Be It Further Resolved, that notwithstanding the above provision, no interest shall be charged if payment of any quarterly installment is made within ten (10) days after the date upon which the same become payable according to the laws in such cases made and provided. If such payment is not made within the ten (10) days grace period, the above rate of interest shall run and accrue from the original due date of such taxes.”

Under provisions of C.75, P.L. 1991 (amending N.J.S. 54:4-67), enacted March 28, 1991, the definition of tax delinquency was defined as the sum of all taxes and municipal charges due on a given parcel or property covering any number of quarters or years. In addition, the governing body may also fix a penalty to be charged to a taxpayer with a delinquency in excess of \$10,000 who fails to pay that delinquency prior to the end of the calendar year. The penalty so fixed shall not exceed six (6%) per cent of the amount of the delinquency.

The governing body, on January 5, 2022, adopted a resolution enabling the \$10,000 delinquency penalty provisions.

The audit of the Collector's records on a test basis indicated no differences between the amount of interest payable on delinquent tax payments, based on our calculations, and the amount of interest charged.

### **Delinquent Taxes and Tax Title Liens**

The delinquent taxes at December 31, 2022, include property taxes outstanding from the 2019 and 2022 tax levies.

A tax sale was held on December 15, 2022 and was complete.

The following comparison is made of the number of tax title liens receivable on December 31 of the last three years:

<u>Year</u>	<u>Number of Liens</u>
2022	32
2021	30
2020	23

**Verification of Delinquent Taxes and Other Charges**

Verification notices were mailed to confirm balances as of November 15, 2022. The items that were returned were compared to and are in agreement with the Township's records. For items not returned, alternative procedures were performed.

A test verification of delinquent charges and current payments was made in accordance with verification procedures approved by the Division of Local Government Services. A summary of such verification is as follows:

Type of Receivable - Real Property Tax Date of Circulars - November 15, 2022				
Verification <u>Type</u>	Request <u>Form</u>	Total No. <u>of Items</u>	Total No. of <u>Circular</u>	Total No. <u>Returned</u>
2022 Property Tax	Positive	2,954	25	15
2022 Property Tax	Positive	2,954	25	15

**Technical Accounting Directives**

During the calendar year 1984, the Division of Local Government Services initiated as part of the Single Audit Law, a planned revision of the Requirements of Audit to provide new accounting requirements mandated for most local government units. The revision to the Requirements of Audit and Accounting would be in order to improve fiscal accountability for all local governments, satisfy federal-state audit requirements and enhance the credibility for New Jersey municipal accounting practices with federal-state funding sources and bond rating agencies. The new requirements for most local units started January 1, 1986, unless exemption, based upon amount of federal aid received and population size, was formally secured. The Division in 1988 notified those exempted municipal units of a transition requirement for fully implementation of all accounting directives beginning in the 1989 fiscal periods. The identity and compliance status of the Township of Lebanon to these new directives are as follows:

<u>Requirement</u>	FY 2022 Required <u>Implementation</u>

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Independent Auditor's Report

The Honorable Mayor and  
Members of the Township Committee  
Township of Lebanon  
530 West Hill Road  
Glen Gardner, New Jersey 08826

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Local Governments Services, Department of Community Affairs, State of New Jersey, the regulatory-basis financial statements of the Township of Lebanon in the County of Hunterdon, State of New Jersey, as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Township of Lebanon's basic financial statements, and have issued our report thereon dated April 15, 2023, which indicated that the Township prepares its financial statements on a basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

**Report of Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Township's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

-Continued-

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Township's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under **Government Auditing Standards**.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Township's internal control or on compliance. This report is an integral part of an audit performed in accordance with **Government Auditing Standards** in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Summary of Auditor's Results

The Township prepares its financial statements in conformity with accounting practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a comprehensive basis of accounting other than generally accepted accounting principles.

The audit did not disclose any material weaknesses in the internal controls of the Township.

The audit did not disclose any noncompliance that is material to the financial statements of the Township.

The Township was not subject to the single audit provisions of Federal OMB Uniform Guidance and New Jersey OMB Circular NJOMB 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid for 2022 as grant expenditures were less than the single audit thresholds of \$750,000, identified in the Circulars.
